

WE DO NOT NEED WORDS AND OTHER POEMS

BY ADOLF P. SHVEDCHIKOV

We do not need words,
And if you wish to know everything
That you cannot comprehend
By your mind but only by your heart,
Don't tell me anything
Drown in my bottomless eyes,
Fly all night till dawn,
Wings of love are indefatigable!
Do not be jealous, my darling,
Words hurt only the heart.
It is impossible describe love by the words.
And eternally happy can be someone
Who is breathing by love!

METEORS FACED EACH OTHER

Meteor faced each other,
Instant, and flashed a random link,
We loved each other ardently,
Moment, and we missed each other forever!
Where sits modest astronomer,
Calculating the complex orbits?
Yes, it is possible to meet each other,
Although both distances are so huge!

THE FIRE OF LOVE

You were sarcastic and jocular,
And I was dying of happiness,
My young blood was hot,
And the love impulse took me away.
I did not think about anything
And did not regret something,
My body was burning with fire,
All the past has vanished.
I could not utter a single word
Being so excited,
I loved you again and again,
My eyes obscured by mist...
I drunk you as nectar
Of unknown raceme,
What a joy to be alive
And experience the love fever!
