

FILM REVIEW - JHIMMA (2021) MARATHI MOVIE
JHIMMA- BY THE LADIES, OF THE LADIES AND FOR THE
LADIES!!

By Asst. Prof. Pooja Oak

Zimma, A Marathi movie directed by Hemant Dhome and produced by Kshitee Jog. A superb story narrated for 8 ladies going on a tour and then returned back with a new personality. The story ends with saying that a tour is that CHANGE which will make a person NEW one. After corona pandemic, when everyone is missing going out, tourism, shopping and theaters, Zimma has been launched at this right time and the Change which has been shown in the movie is exactly what everyone is looking for. The story of the film revolves around a group of seven women travelling to London and discovering themselves. It was released in theatres on 19 November 2021. The movie started with 7 ladies of different age groups arriving to a tour to England and the aim of everyone for tourism is different. All of them had run away from

home for one and the other reason. Everyone's story has been shared in a very easy way that nothing felt like wrong or unbelievable.

Suhas Joshi being InduKarnik ,aged women is bugged of carrying all responsibilities of her sons and their families, so she has been on the tour and then she is living life freely and doing all the things those are left out in her life. One important message she gave that kids should never take their parents for granted. Grandparents love the grand children but it should not be the sole responsibility of grandparents. A very soft message is passed out through the movie that Parents need a retirement and duties free life, they too need a Break.

Another story is of Maithili Deshpande, played by SonaliKulkarni with her natural Acting. Arrange marriage real life problems are extracted in her story. She has just engaged by an arranged marriage but couldn't get involved much in the relationship. She is trying to find her SPACE in the relationship and then a tour guide Kabir as SiddharthChandekar, help her to find her way towards the relation.

Siddharth has done his job fantastically by playing a character for a Tour manager, newly started touringbusiness and being trapped by all ladies. He has been a connecting string like for all 8 characters and keep the story go on. Next story is of Kshitee Jog as Mita, she has guilt of her husband's death. She felt that being housewife, her husband ended the life without disturbing her. She has the guilt that she couldn't understand what was going in the mind of her husband. She has been in a grief and shock of the sudden death of her husband. She made herself responsible for her ignorance towards the incidence. But with the tour friends, she also tried to make up her confidence and come out of it.

The whole movie runs around London, showing us special places in London and we too became the part of it. The best part of the movie is acting of Nirmitisawant as NirmalaKondePatil. A typical housewife of politician is crafted by her so very well. Every small things of a character like talking, gestures, emotions, dressing have been produced by her very perfectly. She had played the character in a fantastic way so that the movies go smooth in a link and she entertained and make audience laugh on each of her dialogue. We can call her as the USP of the movie.

Its refreshing, entertaining and giving a life lesson movie for all the audience, specially to ladies.

We can criticize that very less scope has been kept for gents to come and watch this movie. Whole story runs and entertains only for ladies. It's like By the ladies, of the ladies and For the ladies movie. I will surely recommend all to watch the movie to find your identity and your place in the world.
